

GIFTS OF SECURITIES

WHAT ARE THE BENEFITS TO MAKING A GIFT OF SECURITIES?

A gift of publicly-traded securities, such as stocks, bonds or mutual fund units is a great way to help BC's children. It is also the least expensive way to make a gift to BC Children's Hospital Foundation.

If you own publicly-traded securities that have increased in value and you decide to sell them, 50 per cent of the capital gain is taxable. However, if you donate these securities "as is" to the Foundation, you will not pay any tax on the capital gain. The charitable tax credit you receive will offset tax on other income.

HOW DO I TRANSFER MY SECURITIES TO BC CHILDREN'S HOSPITAL FOUNDATION?

Transferring your securities to BC Children's Hospital is easy to do. Simply contact a member of the Philanthropy team at BC Children's Hospital Foundation to discuss your donation and to receive our Securities Donation transfer form. Then give the form to your broker or financial advisor and discuss your options to make a gift of securities to BC Children's Hospital Foundation. Your broker will arrange the transfer of the securities to the Foundation's brokerage account. Our agent will advise us of the value of the securities at closing on the day the transfer was received. You will receive a charitable gift receipt for this amount.

COMPARISON OF DONATION OF SECURITIES VS. SALE OF SECURITIES AND DONATION OF CASH PROCEEDS

This example is for information only. We encourage individuals to seek advice from their professional advisors when making a gift to ensure they understand their own situation.

It assumes the fair market value of the securities is \$10,000, that the donor is in the highest marginal tax rate in BC, and that the donor has already donated \$200 in the year.
